The Commissioner of the Department of Labor and Industry, in accordance with Sections 18-2-401 and 18-2-402 of the Montana Code Annotated, has determined the standard prevailing rate of wages for the occupations listed in this publication.

The wages specified herein control the prevailing rate of wages for the purposes of 18-2-401, et. seq., Montana Code Annotated. It is required that each employer pay, as a minimum, the rate of wages, including fringe benefits for health and welfare, pension contributions, vacation, training, travel allowance, and per diem applicable to the district in which the work is being performed, as provided in the attached wage determinations.

C. Definition of Nonconstruction Services Occupations

For the purposes of Prevailing Wage, the Commissioner of Labor and Industry has determined that nonconstruction services means work performed by an individual, not including management, office or clerical work, for:

- (a) the maintenance of publicly owned buildings and facilities, including public highways, roads, streets and alleys;
- (b) custodial or security services for publicly owned buildings and facilities;
- (c) grounds maintenance for publicly owned property;
- (d) the operation of public drinking water supply, waste collection and waste disposal systems;
- (e) law enforcement, including janitors and prison guards;
- (f) fire protection;
- (g) public or school transportation driving;
- (h) nursing, nurse's aide services, and medical laboratory technician services;
- (i) material and mail handling;
- (j) food service and cooking;
- (k) motor vehicle and construction equipment repair and servicing; and
- (l) appliance and office machine repair and servicing.

D. Prevailing Wage Schedule

Employers are surveyed biennially to determine prevailing wage rates for services occupations. This publication covers only services occupations. Heavy and highway industry rates are contained in a separate publication. Building construction occupations are surveyed in alternate years and current rates are contained in a publication dated July 1, 2000. All of these rates will remain in effect until superseded by a more current publication.

E. Fringe Benefits

Section 18-2-412 of the wage and hour laws states that:

“a contractor or subcontractor may: (a) pay the amount of fringe benefits and the basic hourly rate of pay that is part of the standard prevailing rate of wages directly to the worker or employee in cash;

(b) make an irrevocable contribution to a trustee or a third person pursuant to a fringe benefit fund, plan, or program that meets the requirements of the Employee Retirement Income Security Act of 1974 or that is a bona fide program approved by the United States department of labor; or

(c) make payments using any combination of methods set forth in subsections (1)(a) and (1)(b) so that the aggregate of payments and contributions is not less than the standard prevailing rate of wages, including fringe benefits for health and welfare and pension contributions that meet the requirements of the Employee Retirement Income Security Act of 1974, travel, or other bona fide programs approved by the United States department of labor, that is applicable to the district for the particular type of work being performed.

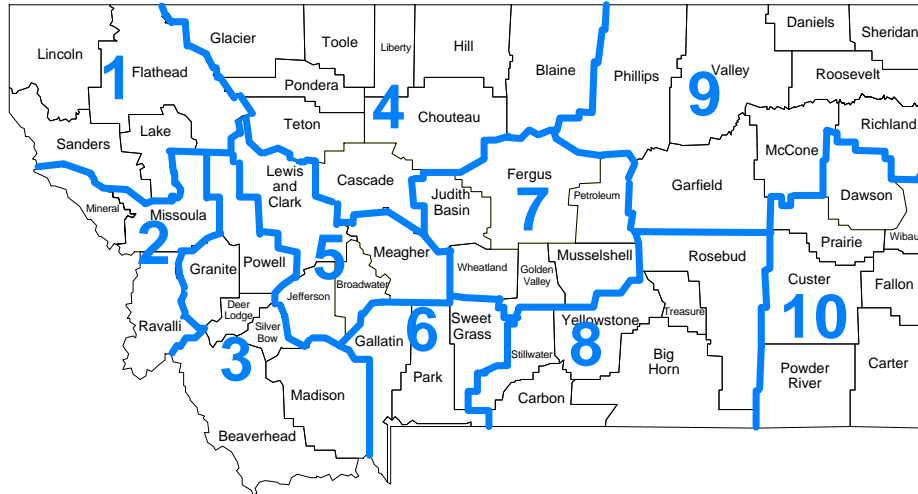

(2) The fringe benefit fund, plan, or program described in subsection (1)(b) must provide benefits to workers or employees for health care, pensions on retirement or death, life insurance, disability and sickness insurance, or bona fide programs that meet the requirements of the Employee Retirement Income Security Act of 1974 or that are approved by the United States department of labor.”

Vacation benefit amounts are included in the prevailing wage rate for services occupations. Vacation can be deducted from the wage rate, after taxes, provided the employer is signatory to a collective bargaining agreement which contains a vacation fund and the benefit is then paid into the fund. If an employer is not signatory to a collectively bargained agreement, the employer must pay the full prevailing wage amount with no deduction for vacation. Other fringe benefits specified (health and welfare, pension, and apprenticeship training) are to be paid in addition to the prevailing wage rates. For services occupations, there are no travel or per diem rates.

Vacation, health and welfare, pension, and apprenticeship training benefits are not to be considered a part of the hourly rate of pay for overtime purposes unless there is a collectively bargained agreement in effect that specifies that fringe benefits are to be computed on an hours-paid basis.
